Hebrews 11:1-3

What is Faith?

Hebrews 11 CEB

Description of faith

11 Faith is the reality of what we hope for, the proof of what we don't see. ²The elders in the past were approved because they showed faith.

Acts of faith by God's people

³By faith we understand that the universe has been created by a word from God so that the visible came into existence from the invisible.

The writer of Hebrews is trying to explain or describe to the early church. What is Faith? This idea of having an acceptance of what was happening in their life and to give control of their life to God. Would have been a new concept for some. Especially those that were Gentiles.

But today do we have Faith? It can be difficult for all of us at some point in our life. Although for some it is easy to have complete Faith. The Faith we all should have is in God. No matter what is happening in our life, we can have the Faith that God will be at our side. Leading, guiding and supporting us. Our Faith is one that others should see. So as they turn their life over to God and accept Jesus Christ as Savior they will grow in their Faith.
